

West Wick and Elmham Way improvement works

Work is due to start on Monday 27 February and we expect it to take up to four months to complete.

From Monday 27 February we'll be carrying out £1m of improvements at West Wick roundabout and Elmham Way to improve traffic flow and reduce congestion, meeting the needs of the area as it continues to develop and grow.

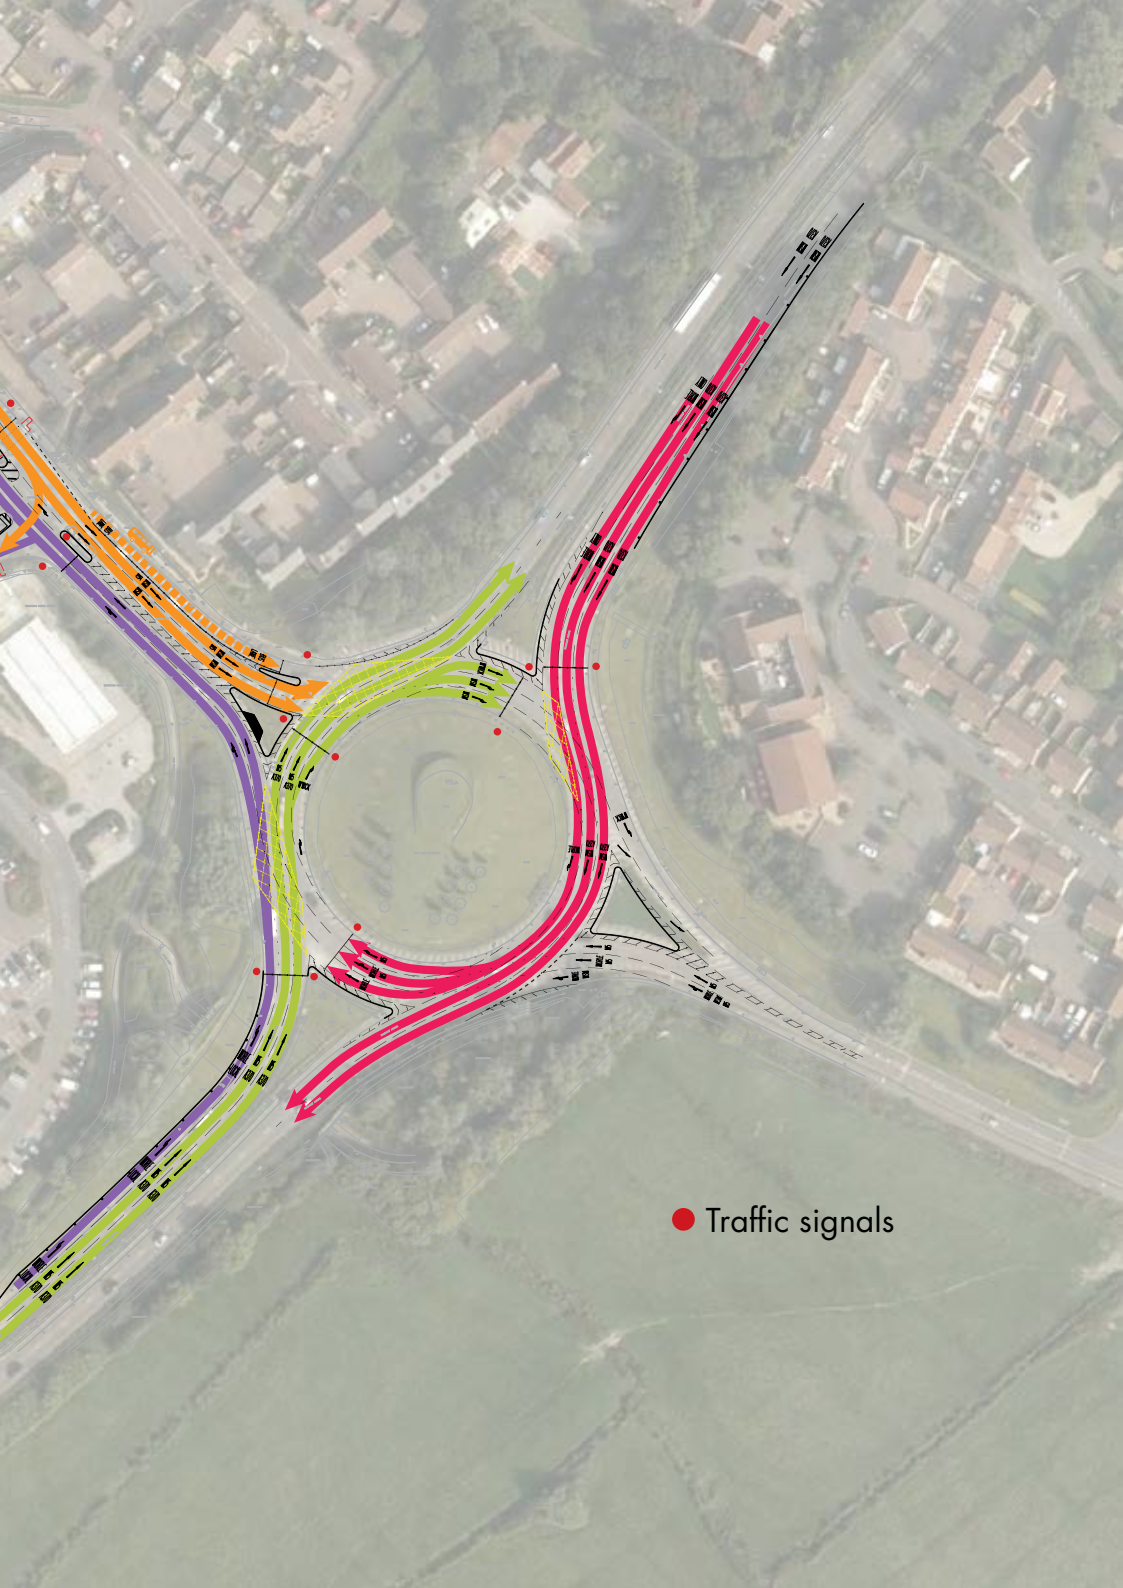

We'll be:

- installing traffic lights where traffic joins the roundabout from the A370 Somerset Avenue (in both directions) and Elmham Way.
- creating a second lane on Elmham Way, on the approach to the Bransby Way/Elmham Way/Rowan Place roundabout.
- lengthening the left turn only lane on A370 Somerset Avenue northbound as it approaches the roundabout.

Works are being completed ready for the new North South link road – running through the new Parklands Village development between the A371 and Churchland Way.

● Traffic signals

Will I still be able to use the roads?

Yes. We're planning the works so that any disruption is kept to a minimum. We'll do our best to make sure lane closures happen outside peak traffic times. There'll be some night time works but these will be limited and our contractor will be mindful that residents live nearby. We'll have to close the road when it's due to be resurfaced, which is likely to be overnight, and we'll give as much notice of this as possible. Access to businesses and properties will be maintained at all times.

Where's the money coming from?

The cost of the scheme is £1m. Around £795,000 of the funding is from the government's Local Growth Fund. The rest of the money is coming from section 106 contributions and the Joint Local Transport Fund.

How can I find out more?

More information is available at www.n-somerset.gov.uk/westwick where we'll post updates and news about road closures. We'll also update our Facebook and Twitter accounts as the works progress.
